

PacketSnitch Privacy Policy

Effective Date: July 30, 2026

PacketSnitch ("PacketSnitch", "the Software") is developed and distributed by Marshall Whittaker, doing business as oxasploits ("oxasploits", "we", "our", or "us"). This Privacy Policy describes how we collect, use, disclose, and protect information relating to the use of PacketSnitch.

By installing, accessing, or using PacketSnitch, you acknowledge that you have read and understood this Privacy Policy.

1. Our Privacy Philosophy

PacketSnitch is designed with privacy in mind.

Our goal is to collect as little information about our users as reasonably possible. Most packet analysis occurs locally on your own computer. We do not intentionally collect or retain personally identifying information except where necessary to operate our business, process purchases, or where you voluntarily choose to provide information.

2. Information We Collect

Automatically Collected Information

Like most online services, our servers may automatically receive technical information when PacketSnitch communicates with our infrastructure, including:

IP addresses

Connection timestamps

Browser or application version

Operating system information

Diagnostic connection logs

Error logs necessary for service operation

These records are used for security, abuse prevention, troubleshooting, and maintaining our services.

Information You Voluntarily Provide

You may voluntarily provide information to us, including:

Name

Email address

Purchase information

Support requests

Diagnostic reports

We only use this information for customer support, licensing, payment administration, and communication regarding PacketSnitch.

3. Optional Diagnostic Metrics

PacketSnitch may offer an optional feature allowing you to submit diagnostic or telemetry information to oxasploits to assist in debugging or improving the Software.

Participation is entirely voluntary.

Before any diagnostic information is transmitted, PacketSnitch is designed to remove or exclude, to the extent reasonably practicable:

Packet capture files (PCAP/PCAPNG)

Imported files

User documents

Binary data blobs

Large payload contents

LLM prompts

LLM responses

Authentication credentials

API keys

Personally identifying content

The diagnostic information is intended to include only technical information necessary to diagnose software defects or improve PacketSnitch.

No diagnostic information is transmitted unless you explicitly choose to do so.

4. Local Packet Analysis

PacketSnitch primarily performs packet analysis locally on your own computer.

Unless you explicitly choose to transmit diagnostic information or use third-party services, packet captures, network traffic, and analysis remain under your control.

5. Internet Communications

PacketSnitch may establish outbound internet connections for features including, but not limited to:

Version checking

Software updates

Plugin management
Theme downloads
License verification
Optional diagnostics
Third-party integrations

By using these features, you understand that your computer necessarily communicates with remote systems across the Internet.

You acknowledge that any legal, regulatory, privacy, or operational consequences arising from such Internet communications remain solely your responsibility. oxasploits does not assume responsibility or liability for the privacy practices, network activity, policies, or actions of third-party services or networks that PacketSnitch may access.

6. Third-Party Services

PacketSnitch integrates with or allows access to services operated by third parties.

These services maintain their own independent privacy policies, terms of service, and data handling practices.

Examples include, but are not limited to:

Paddle (payment processing)
Ollama
VirusTotal
Other user-configured APIs and integrations

Your use of these services is governed by their respective privacy policies and terms.

oxasploits is not responsible for the privacy practices, security, availability, or policies of these third-party services.

7. Payments

Themes, plugins, licenses, and other digital products may be sold through PacketSnitch using Paddle as our payment processor.

Paddle independently processes payment information in accordance with its own Privacy Policy and Terms of Service.

oxasploits is a customer of Paddle and has no ownership, management authority, or control over Paddle's privacy practices beyond the services they provide to us.

Financial records provided to us through Paddle may include information necessary for:

Customer identification

License fulfillment

Accounting

Tax compliance

Fraud prevention

Legal obligations

Such information may include customer names, email addresses, purchase identifiers, and transaction history.

Except where required by law, necessary to fulfill our contractual obligations, or as permitted under Paddle's agreements, we do not sell or disclose this information to unrelated third parties.

8. User-Supplied API Keys

Certain PacketSnitch features require API keys or accounts obtained directly from third-party providers.

Examples include:

Ollama

VirusTotal

Future integrations

Obtaining, maintaining, and paying for these services is solely your responsibility.

Your relationship with those providers is governed exclusively by their own terms and privacy policies.

oxasploits does not control how those providers collect, store, or process your information.

9. Data Sharing

We do not sell your personal information.

We may disclose information only when:

Required by applicable law

Required by court order or legal process

Necessary to investigate abuse or fraud

Necessary to protect our legal rights

Necessary to operate our business

Necessary to complete payment or licensing operations

10. Data Security

We employ reasonable administrative and technical safeguards intended to protect information under our control.

However, no method of electronic storage or Internet transmission can be guaranteed to be completely secure.

Accordingly, we cannot guarantee absolute security.

11. Data Retention

We retain information only for as long as reasonably necessary for:

Customer support

Accounting

Tax compliance

Licensing

Fraud prevention

Legal obligations

Business operations

Diagnostic submissions may be retained for software debugging and quality improvement.

12. Children's Privacy

PacketSnitch is not directed toward children under the age of 13.

We do not knowingly collect personal information from children.

13. Your Rights

Depending upon your jurisdiction, you may have legal rights regarding your personal information, including rights to request access, correction, deletion, or other applicable rights under law.

Requests may be submitted using our published support contact information.

14. No Warranty

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, PACKETSNITCH IS PROVIDED "AS IS" AND "AS AVAILABLE," WITHOUT WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE.

OXASPLOITS EXPRESSLY DISCLAIMS ALL WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, ACCURACY, RELIABILITY, OR THAT THE SOFTWARE WILL OPERATE WITHOUT INTERRUPTION OR ERROR.

15. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, OXASPLOITS SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES, INCLUDING LOSS OF DATA, LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF GOODWILL, OR NETWORK DAMAGE ARISING FROM THE USE OF PACKETSNITCH OR ANY THIRD-PARTY SERVICE ACCESSED THROUGH THE SOFTWARE.

USE OF PACKETSNITCH IS ENTIRELY AT YOUR OWN RISK.

16. Changes to This Privacy Policy

We may revise this Privacy Policy from time to time.

Updated versions become effective upon publication with a revised Effective Date.

Continued use of PacketSnitch after revisions constitutes acceptance of the updated Privacy Policy.

17. Contact

Questions regarding this Privacy Policy may be directed to the contact information published by oxasploits on the official PacketSnitch website or through the application's support channels.
